## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 24 is rejected under 35 U.S.C. 102(e) as being anticipated by Miyajima (US 2005/0073663).

Regarding claim 24, Miyajima discloses “an illumination system having a lens (Fig. 1, ref.# 2, 5) and providing a beam of radiation (Fig. 1, line showing optical path between ref.# 2b and ref.# 8a), said projection beam having a cross-section (paragraph 0002, lines 1-2); a support structure supporting a patterning device (Fig. 1, ref.# 6, 9), said patterning device serving to impart said cross-section of said beam with a pattern (paragraph 0002, line 2) and forming a patterned beam; a substrate table (Fig. 1, ref.# 8) for holding a substrate (Fig. 1, ref.# 8a); a projection system (Fig. 1, ref.# 7) that projects said patterned beam onto a target portion of said substrate; and a vacuum chamber (Fig. 1, ref.# 3; paragraph 0029, line 1) enclosing at least one of said support structure (Fig. 1, ref.# 9), said substrate table (Fig. 1, ref.# 8), and said projection system (Fig. 1, ref.# 7), said vacuum chamber including a base frame (Fig. 8, ref.# 33; paragraph 64, line 9) on which at least one a plurality of components of said apparatus

which may cause motion or heat to be generated in said apparatus, is mounted (paragraph 0004, lines 1-4; paragraph 0064, lines 1-4).”

### ***Allowable Subject Matter***

3. Claims 1-23 and 25 allowed.

4. The following is an examiner’s statement of reasons for allowance:

The prior art does not teach or disclose a heat transport system having a heating element in thermal interaction with at least one of a projection system and a reference frame for heat transport to or from at least one of said projection system and said reference frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
